

INSTALLATION:

Use threaded holes in the back of electromagnet to mount.
Apply 24 Volts DC to leads. Polarity is unimportant as electromagnets work equally well in forward or reverse polarity.

MAINTENANCE INSTRUCTIONS:

Electromagnets require very little maintenance to provide a long useful life. Daily use of a shop towel to wipe the face of the magnet free of debris, grease and oil or other foreign matter will ensure years of service life and thousands of safe lifts.

MODEL: DCS-300T-24C
 VOLTAGE: 24 VDC
 CURRENT: 18 WATTS
 DUTY CYCLE: CONTINUOUS
 HOLDING POWER: 290 LBS
