MAGNETIC SPECIALISTS FOR AUTOMATED MANUFACTURING

MODEL# YS-36

PICK-UP HEIGHT: 2-4 INCHES
DUTY CYCLE: PERMANENT
WEIGHT: 48 LBS.

INSTALLATION:

Use hooks or shackles to connect
eyebolts to equipment.

MAINTENANCE INSTRUCTIONS:

Electromagnets require very little maintenance to provide a long useful life. Daily use of a shop towel to wipe the face of the magnet free of debris, grease and oil or other foreign matter will ensure years of service life and thousands of safe lifts.

The lifting capacity is greatly reduced when the face of the magnet is dirty. Use care when handling the magnet so as not to nick or mar the lifting surface. If the face becomes heavily worn, lightly surface grind a few thousandths off the face to clean up the lifting surface.

IF YOU HAVE ANY QUESTIONS ABOUT THIS MAGNET OR THE CORRESPONDING DC POWER SUPPLY, PLEASE CALL OUR ENGINEERING DEPARTMENT FOR ASSISTANCE: (1-800-635-3954)

**REMEMBER, ALL LIFTING DEVICES SHOULD BE USED WITH CARE.
DO NOT ALLOW ANYONE TO BE UNDER THE OBJECT BEING LIFTED!**
